SUSTAINABLE SPORTSWEAR

We want to clean nature

The high quality Motivate sportshirts give you the power to make a difference.

Not only to give yourself and the people around you new energy to set goals and to achieve them, but also to motivate yourself and others to make a difference for the environment.

These shirts are made of 100% recycled PET bottles, so you contribute to make the world a cleaner place.

We are motivated to clean nature

This is how we work

Bottles are collected from beaches

PET bottles are selected to recycle

The PET bottles are being converted into small PET chips

The PET chips are turned into new rPET-yarn

The yarn is knitted to make a fabric

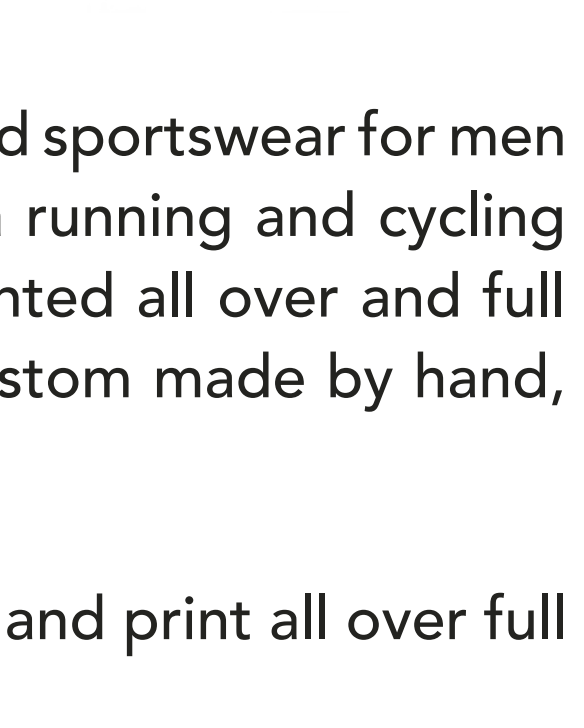

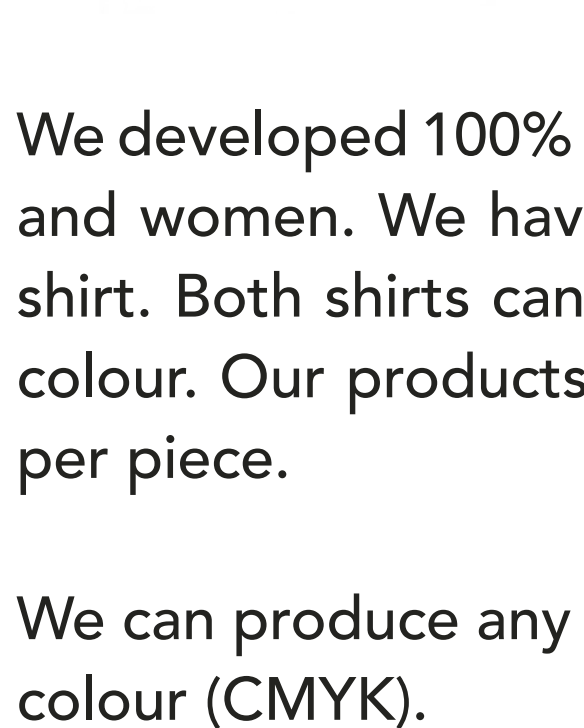

The result is 100% recycled sportswear

What is your motivation?

Custom made design

We developed 100% recycled sportswear for men and women. We have got a running and cycling shirt. Both shirts can be printed all over and full colour. Our products are custom made by hand, per piece.

We can produce any design and print all over full colour (CMYK).

Ask us for a free visual!

The benefits:

- Full colour print
- From 15 pieces
- 100% recycled
- Yarn from Italy
